

**Minimize photobleaching**

## Workshop “Advanced Fluorescence Microscopy”

Find out what the state of art in microscopy can do for you

**Venue:** MPI of Experimental Medicine, Room B116

**Date:** Thursday & Friday, April 22th & 23th, 2010

**Time:** 09:00 to 17:30

Please sign up for this seminar as soon as your time permits, as the number of participants is limited.

- Modular solutions for **TIRF**, **FRET**, **FRAP**, and **Optical Sectioning in Real-Time, High Speed Calcium Imaging**
- Live demo with the recently introduced digital microscope **iMIC**, which **combines all fluorescence methods in a single unit**
- Save time, keep your cells alive and gather more meaningful data for publications

All you need to do is **send an email** to [info@till-photonics.com](mailto:info@till-photonics.com) confirming your attendance, we will take care of the rest.

We look forward to seeing you.

Dr. Julia Kalb  
Manager Application & Sales
